EDUCATION

Jawaherlal Nehru Girls High School

Tawjihi (Scientific Stream)

GPA : 96.3%

An-Najah National University

Bachelor of Computer Engineering

GPA : 3.10/4

PROJECTS

Community Crafters ([GitHub](#),[Postman](#))

Collaborative platform for craftsmen to share materials and resources to reducing project costs.

Tools : Express.js , MySQL , Postman

Dukan Baladna ([GitHub](#),[Postman](#))

A platform that connects chefs and buyers with ingredient exchange, automatically sending orders to the nearest driver to reduce time and effort, with coupons for the most active buyers, and supported by maps and instant notifications to facilitate the process.

Tools : Express.js , MongoDB , Firebase , Gomaps , Postman

Furniture shop ([GitHub](#),[Live Link](#))

Responsive e-commerce website for furniture display, online purchase, and home delivery.

Tools : HTML , CSS , JS , Bootstrap

Bazar.com ([GitHub](#))

Design a multi-layered system using microservices and REST APIs to support search and purchase operations. Improve performance using caching and replication, ensure data consistency and distribute load using Round Robin algorithm.

Tools : HTML, CSS, Express.js, Docker.

TECHNICAL SKILLS

Programming Basics

Assembly, C++, OOP, Data Structures
Algorithm

Software Practices & Tools

Git & GitHub , Postman , Render , Docker

Backend Development

Nodejs , Express.js , MongoDB , MySQL
ORM .

Frontend Development

HTML, CSS , JS , Bootstrap , ReactJS

COURSES & ACTIVITY
